

AC-225

Advanced Scalable Networked Access Controller

The state-of-the-art single/dual door AC-225 networked access controller is the backbone of medium scale security systems handling up to 30,000 users and 4092 doors. Driven by Rosslare's powerful, flexible and easy to use software, the system provides an ideal, modular and expandable solution for commercial and institutional needs. It provides seamless integration with Rosslare's range of RFID Proximity, PIN, PIN & PROX, Smartcard and biometric readers with Rosslare's selection of RFID credentials.

General Description

AC-225 is suitable for applications with up to 30000 users across a modular 4092 doors, allowing maximum flexibility for securing a growing enterprise.

Each AC-225 Access Control Unit (ACU) supports two readers (In/Out) of various formats including standard Wiegand 26-bit. Installations can also have one reader per door.

The AC-225 is ready for installation with a mountable & lockable metal enclosure integrated with transformer, power supply/charger, sounder and control board.

Using onboard RS-232, Ethernet TCP/IP, and PSTN, multiple local or remote site door sub-networks can connect to the AS-525 AxTrax Client/Server PC software running on Microsoft® Windows® 98/ME & NT/2000/XP operating systems.
